

MCSAero – Website

Feedback

1. Please Update Main Slogan

2. Please update the VIP Interior Completions Page

I made a doc file
“Why MCS is the Right
Choice for VIP Interior
Completions.docx”

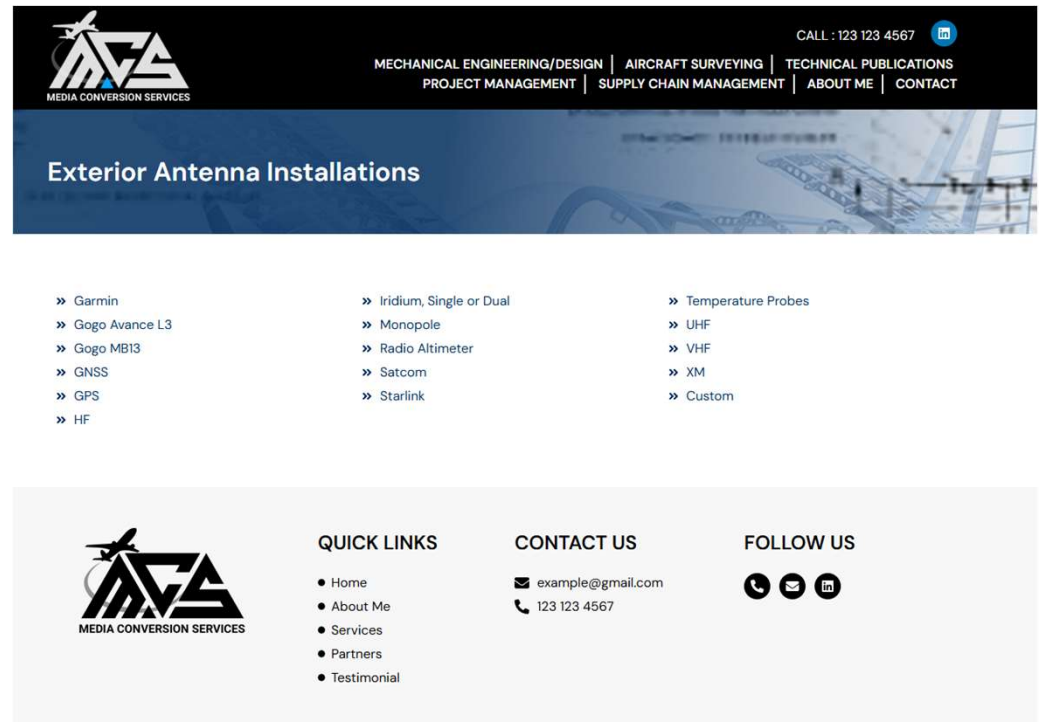

VIP Interior Completions / Interior Modifications

- » 11 Placard Design
- » 23 Cabin Antennas & Router
- » 23 CMS (Cabin Management Systems)
- » 24 Electronics / Avionics
- » 25 Cabin Interiors
 - » Galley rearrangements
 - » Headliners
 - » Valance
 - » Drawers / Slides / Latches
 - » Equipment Racks
 - » Closeouts
 - » Speakers
- » 33 Lighting
- » 44 IFE (In Flight Entertainment)
- » 44 Monitor Installations
- » 46 Information Systems
- » 52 Doors
- » 53 Fuselage
- » Mechanical Systems

I'm not loving the list format. I think I should write this out. Maybe summarize to include all these items and

3. Please update the Antenna Install Page

I have emailed you a file named “Antenna Installation Page”

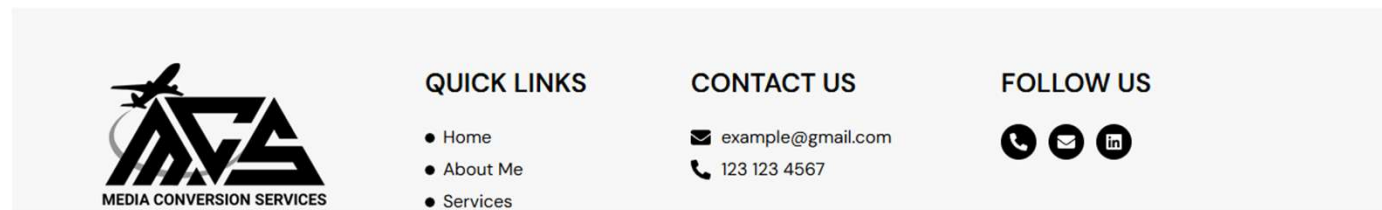

4. Please update TECH PUBS PAGE

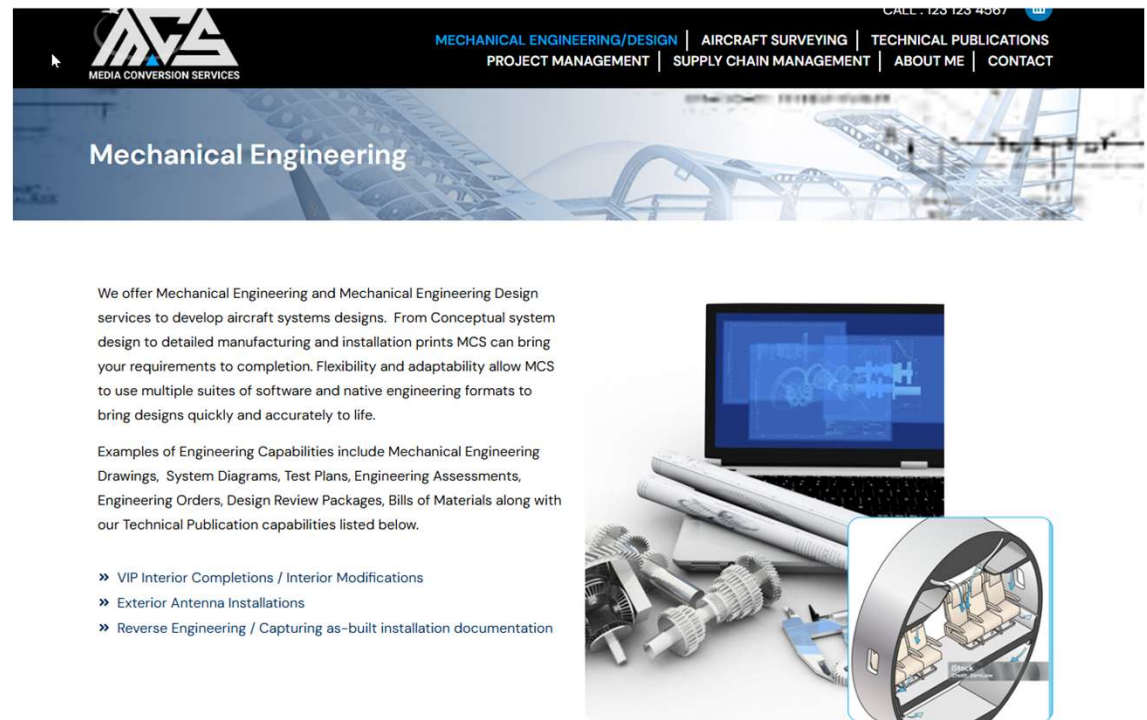

Ability to organize existing engineering packages to generate the required Aircraft Technical Publications. Having the capability to write supplemental manuals for all of the following:

- » Aircraft Maintenance Manual
- » Aircraft Flight Manual
- » Illustrated Parts Catalog

5. Expend to include the other Updated slides.

I do like the image that we would need to buy.. Let me know how I can purchase, and I will do so, or I may have an image similar to that we could potentially generate ourselves if the price isn't right.

Mechanical Engineering

We offer Mechanical Engineering and Mechanical Engineering Design services to develop aircraft systems designs. From Conceptual system design to detailed manufacturing and installation prints MCS can bring your requirements to completion. Flexibility and adaptability allow MCS to use multiple suites of software and native engineering formats to bring designs quickly and accurately to life.

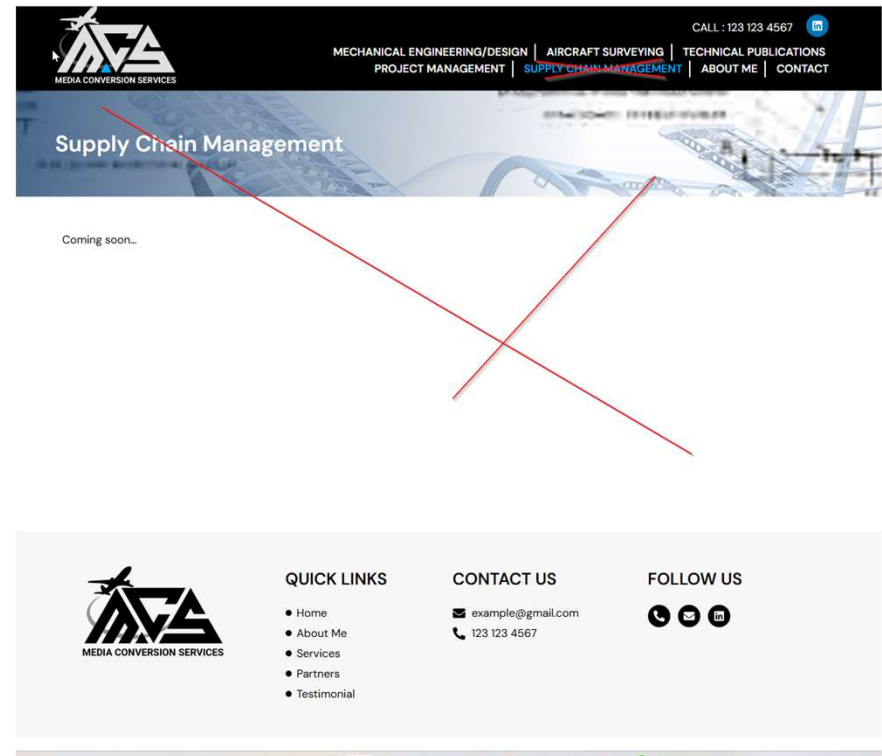

Examples of Engineering Capabilities include Mechanical Engineering Drawings, System Diagrams, Test Plans, Engineering Assessments, Engineering Orders, Design Review Packages, Bills of Materials along with our Technical Publication capabilities listed below.

- » VIP Interior Completions / Interior Modifications
- » Exterior Antenna Installations
- » Reverse Engineering / Capturing as-built installation documentation

6. Services Page – Please see word document

- Mechanical Engineering
- Mechanical Design
- Drafting
- Technical Writing
- Technical Reviews
- SolidWorks PDM Integration / Deployment
- Lean Engineering / Continuous Improvement Consultations

8. Supply Chain Management – I know I want to include this in the future. But let's drop this for Initial Rollout please.

9. About Me - Please replace with supplied file

- Please go ahead and replace the content with provided content in word file “About Me.docx”
